## ALLEGED GRAIN COMBINE.

There has been considerable talk for some  
days about an alleged combine in the local  
grain trade. We contemplated discussing  
the matter in the Commercial last week, but  
finally decided to defer the matter until this  
week in the hope of gaining further insight  
as to the truth of the reports. In the mean-  
time, however, publicity has been given to  
the rumors through the daily press. The  
Commercial has no capital to make out of  
the matter, so that it is not in our interest  
to either exaggerate the reports or the one  
hand nor to conceal or defend anything on  
the other.

The situation appears to be about as fol-  
lows: A few years ago a number of the  
largest grain firms associated themselves  
together, and have been doing business  
since as the Northern Elevator Co., con-  
trolling a large line of elevators throughout  
our wheat districts. This company has been  
familiarly known as "The Syndicate." This  
year two new companies were formed,  
in each of which a number of grain  
firms or dealers were associated together,  
thus forming, with the Northern Elevator  
Co., three large amalgamated companies,  
each one controlling a large line of country  
elevators. The formation of these strong  
companies and the construction of a large  
number of new elevators this season, ren-  
dered the outlook somewhat exciting for  
the coming season's grain trade.

Just as the grain season began to open,  
rumors came into circulation that a gigantic  
combination was being formed in the grain  
trade. That these rumors had some founda-  
tion was evident from certain circumstances  
which came to the knowledge of those  
familiar with the grain trade. One cir-  
cumstance was the discharge of buyers who  
had been engaged to represent different  
companies and firms, in buying grain at  
country points. The discharge of these  
men pointed to the probability that some  
understanding had been arrived at as to the  
handling of wheat in the country. It is  
also stated that one man at Fort William  
and another one at New York, will re-  
present all the amalgamated companies, as  
well as some other firms not supposed to  
be in the amalgamated companies. What  
the exact nature of the arrangement is,  
however, the Commercial cannot at present  
explain.

As already stated, the Commercial has no  
capital to make out of the matter by show-  
ing monopoly and posing as a high yel-  
low journalism. Neither have we any-  
thing to gain by any elaborate defence  
of the grain trade. If there is anything  
to expose which would prove detrimental to  
the producer, the Commercial will not  
shrink from exposing it. At the same time  
we do not believe that any combination to  
control prices is practical. It is true that  
practically all the large firms which buy  
directly from the farmers and control lines  
of country elevators, are alleged to be in the  
combine. But there is still a large num-  
ber of independent dealers who are not in  
the syndicate, pool or combination of what-

## Heart Spasms

**DR. AGNEW'S CURE FOR THE HEART**  
A WONDERFUL LIFE-SAVER.

No organ in the human anatomy today  
where disease can so more readily de-  
velop as the heart and the medical  
discoveries have made them amenable to  
proper treatment. If you have palpitation  
or fluttering, shortness of breath, weak or  
irregular pulse, swelling of feet or ankles,  
pain in the left side, fainting spells, drop-  
sical edema, any of these indicate heart  
disease. No matter how long standing  
Dr. Agnew's Cure for the Heart will cure  
it. A heart disease—cure quickly and  
safely—no delay.

I was given up to die by a physician  
and friends, the late Dr. Agnew's  
Cure for the Heart gave me new life,  
and I am now as well as ever. I have  
been a member of the Medical Association,  
N.Y.C., and have been a member of the  
Presbyterian Church, and will be greatly  
gratified by both bodies.

ever it may be. Then we have the millers  
who must be reckoned with. Besides the  
many smaller millers, we have the Ogilvie  
Milling company and the Lake of the Woods  
Milling company, either of which are able  
to hold their own against any possible com-  
bination in the grain trade. The millers  
may be depended upon as a competing  
factor, and we may say the principal competi-  
tor in the market. It is well known that in  
past seasons the millers have frequently  
forced prices to such an extent as to prac-  
tically put the exporters out of the market.

The present indications are that the grain  
trade in Manitoba has been overdone. Ele-  
vator building has certainly been overdone  
at many points, on the present basis of  
agricultural population and crop area. Too  
much competition has probably necessitated  
some sort of amalgamation of interests, but  
before getting up a big agitation over the  
matter it would be well perhaps to wait and  
see what the result will be. It is an easy  
matter to calculate wheat values, and if  
any attempt is made to depress prices it  
will be quickly made known.—Commercial.

WHEAT in this district is not turning out  
as well as expected, many only getting  
about half the quantity harvested last year  
of the same acreage, while a number of  
will have as large a crop as usual, the differ-  
ence owing in most cases to the mode of sow-  
ing in the spring. Summerfallowing is evi-  
dently the plan that should be adopted by all  
farming in the Northwest in order to secure  
a crop. The grain this year, however, is of  
good quality, though mixed with a lot of  
light wheat. We think it would be money  
in the farmer's pocket if, before selling his  
grain, to fan it; he would have the tailings  
for feed, anyway, and the dockage at the  
elevators would be much less than that of  
uncleaned wheat.

A dispatch from Ottawa to the Winnipeg  
Free Press, dated Sept. 21, says: There is  
prospect of re-organizing the Northwest  
Territory as soon as there is a chance, for  
the amount of work devolving upon the  
federal authorities is excessive, and as soon  
as the Territories are in shape to govern  
themselves thoroughly and to provide their  
own funds, they will be given full charge.

It is rumored that the Meats Bros. have  
purchased the Vidette, Indian Head, and  
will in future run that organ on Conserva-  
tive lines.

A larger issue of 25c thin plasters by the  
Dominion government would be a great  
convenience to the public.

## CURED AT THE SHRINE.

Almost Hopeless Case of Kidney Trouble  
Duly Being Cured by That Most Won-  
derful Remedy, the Great South American  
Kidney Cure.

D. J. Locke, of Sherbrooke, P.Q., spent  
\$100 in treatments for a complicated case  
of kidney disease and received no perma-  
nent benefit. He says: "I began the use of  
South American Kidney Cure, and when  
four bottles were used I was completely  
cured." This is but one testimony of  
thousands more who have gone almost dis-  
courage in their case, a cure, and have  
received their health and lasting cure.  
See my remarks in P. M. Post.

## OBITUARY.

ALEXANDER ROY.

The sad unexpected death of Mr. Alex-  
ander Roy took place on Thursday morn-  
ing last. He had been a sufferer from  
kidney trouble for some time and of late the  
extension of his condition had become  
more and more apparent to his relatives and  
friends. The deceased came from Well-  
ington, Ont., in 1880, and lived for some  
years in Alberta, and then returning to the  
local hospital. He leaves a widow and  
two children, who will have every-  
thing in common with their bereavement.  
The funeral was held on Sunday and was  
conducted by the Organist, of which order  
deceased was a member, about seventy of  
the brethren from Fort Qu'Appelle, Wis-  
consin, and Indian Head, and a large num-  
ber of the four brothers, Messrs. John,  
William, James and David Roy with their  
families were the chief mourners, and a  
very large number of his neighbors and  
friends following the remains to the grave.  
Some eighty or more being counted besides the  
large number of pedestrians. The Rev. A.  
Robinson conducted the service at St. An-  
drew's church and the grave, the funeral  
service being read by County Master  
Kerr—Vidette.

ROBERT CRAWFORD.

News of the death of the above named,  
well known and highly respected gentleman,  
reached here on Wednesday morning, caus-  
ing quite a shock to the community, as for  
many years the deceased has been well and  
favorably identified with the surrounding  
districts. On Sunday last Mr. Crawford  
attended the funeral of the late Mr. Alex.  
Roy, at Indian Head, and to all appear-  
ances was in the enjoyment of his usual  
robust health, consequently the suddenness  
of his death yesterday morning has caused  
quite a shock. As far as can be learned at  
the time of writing, the cause of death is to  
be ascribed to heart trouble. The deceased  
was a well known figure in the Northwest,  
he had been connected with the Hudson  
Bay Co., and being interested in the Bel-  
ieving to come to Indian Head, opening  
a store there in 1882, and continuing as a  
general merchant at that place up to the  
time of his death. In 1884 he represented  
the Qu'Appelle district in the Northwest  
Assembly. As the general and obliging  
postmaster of the town he was univer-  
sally respected. During the rebellion of  
1880, Mr. Crawford acted as paymaster at  
Qu'Appelle for the R. E. Co., and for his  
undoubted services gained the respect of all  
classes. The deceased was an advanced and  
honored member of the Masonic order, and  
also an elder in the Presbyterian church,  
and will be greatly missed by both bodies.

as well as by all who had the privilege of  
knowing him, as by all such he was beloved  
and esteemed. Indian Head has lost a  
good and progressive citizen and friend.  
His family have the sympathy of all in this  
district in their bereavement. The body  
was sent to Brockville, Ont., last night for  
burial.

## ANOTHER VICTIM

To the Erratic Aim of the Care-  
less Shooter.

Last Wednesday, the 15th inst., as Min-  
nie, the 15-year-old daughter of Conductor  
Cates, was engaged in watching her father's  
cattle a short distance from home, she was  
struck in the face by some shot fired by  
two sportsmen shooting in the neighbor-  
hood, and was found a short time after-  
wards unconscious. On examination it was  
found that she was not seriously wounded,  
but her nervous system has sustained a  
severe shock and she is completely prostrated.  
It is hoped, however, she will soon  
recover.

A short time after this calf was knocked  
down by some shot, supposed to have been  
fired by the same party, who shot at game  
chickens running among the herd. This is  
a pretty good record for one day. These  
gentlemen have moved their vacation and  
should be with the troops in the Afghan  
frontier, where human life is held cheap and  
where they would be rendering their country  
valuable service in destroying the enemy,  
but here in the Northwest, where some  
value attaches to human life, restrictions  
should be put upon them and they be made  
to pay dearly for their criminal carelessness.

Only last July we drew attention to the  
careless use of firearms, and urged some  
action being taken by those in authority.  
What was done? Nothing, as far as we  
know. What we would suggest now is that  
a bill be introduced in the next legislature  
making it a criminal offence for anyone to  
have a gun or rifle in his possession without  
a license, and that license only to be granted  
to persons in their right mind and having  
proper knowledge of the use of firearms.

## PAIN-WRACK.

No Station in Life is Proof Against Rheu-  
matism—All Come Under the Ban—South  
American Rheumatic Cure Cures All.

Chas. Cotton, of Ganouque, has been  
employed by the Bannan Company for  
nearly twenty years as engineer, and from  
the nature of the employment was subjected  
to severe attacks of rheumatism. He tried  
many remedies with scarcely any benefit.  
South American Rheumatic Cure was  
recommended to him. He found almost  
instant relief and the first bottle effected a  
cure. Sold by Henderson & Parker.

—The Cosgroves, Monday night.

## Lebret Locals.

(From our own correspondents.)

The scarlet fever, we regret to say, still  
continues at the Industrial School. There  
are about fifty patients at present in the  
hospital. There have been no deaths re-  
sulting, and it is to be hoped there will be  
no fatal cases. Everything is being done  
for the children in the way of medical at-  
tendance and care.

The Inspector of public schools, Canon  
Flett, inspected Lebret school last Wednes-  
day. He found the school satisfactory, but  
the attendance so irregular as to call for  
special attention. It would be well for  
parents to take more interest in school  
matters.

Mr. Meelan's team took fright the other  
day and ran away. In making a short turn  
the wagon completely overturned, the  
driver underneath. Fortunately he escaped  
with a severe shock only.

Mr. Ferguson, Inspector Standard Life  
Assurance Co., is visiting here for a few  
days.

Miss Cora Seymour left for Calgary on  
Monday to pursue her studies there.

When Lady Marie Wootley Montague visited  
the household of the Sultan, she wrote home to  
England that the ladies of the harem were  
suffering with a disease that her  
advisers were unable to cure.  
The ladies of the harem would no doubt  
have been equally astonished, though perhaps not  
depressed to laughter, had they known that  
the women of western nations, through false  
ideas of decency, suffer in silence untold  
agony, and sometimes death, through neg-  
lect of their health in a womanly way.  
Women who suffer in this way shrink from  
the embarrassing examinations and local  
treatment resorted upon by the majority of  
physicians. If they only knew it, there is  
no necessity for these ordeals. An em-  
powering and skillful physician long since dis-  
covered a remedy that women may use in  
the privacy of their own homes. It is Dr.  
Foster's Female Prescription. It acts di-  
rectly on the feminine organism, giving it  
strength, vigor and elasticity. It stops all  
debilitating drains. It is the greatest of all  
nervine tonics and invigorators for women.  
Thousands of women who were weak

## OU'APPELLE PROGRESS.

Thursday, September 23, 1897.

## THE NEWS OF THE DAY.

### A FEW BRIEF PARAGRAPHS FOR BUSY PEOPLE.

**The Flotam and Jetsam of the World**  
Around us Portrayed in Condensed Items, Which Treat of Men and Things in a General Way.

The union Bank of Canada has opened a branch at Minnedosa.

A peach 13 1/2 inches in circumference was raised in Minn. county, Tenn., this season.

The number of pupils in the schools of the United States last year was 16,415,197 an increase of nearly 5,000,000 since 1890.

Major Walsh, administrator of the Yukon country, has been made a commissioner of the Northwest Mounted Police.

Last year the United States exported \$12,000,000 worth of hams—120,000,000 pounds—of which England bought 100,000,000.

The Roman Catholic archbishop of Montreal has forbidden the priests to ride bicycles within the city limits, on the ground that it is undignified.

Massachusetts convicts are getting fastidious. Not content with Boston baked beans for breakfast every day they have just sent in a petition for custard pie every Sunday.

Crow's Nest Pass Coal company is the name of a strong syndicate of Toronto capitalists, seeking incorporation to develop coal resources in the region of Crow's Nest Pass.

An order-in-council has been passed in Ottawa authorizing the minister of the interior to appoint local sub-agent in Manitoba and the Northwest at salaries not exceeding \$25 per month.

Arrangements have been completed between the governments of British Columbia and Manitoba for the admission of pupils from the former province to the Winnipeg deaf and dumb institute.

England's missionary societies expended last year \$1,387,955 on foreign missions. That sum has not made very many converts, but it might have saved the lives of a million starving Hindus.

Hon. J. G. Ward, colonial treasurer of New Zealand has been declared bankrupt. His estate will not realize more than 7s. 6d. in the pound, even if the debtors household furniture be sold for the benefit of the creditors.

Heavy and premature fall rains in British Columbia have caused considerable damage to grain crops in the coast and inland districts, though the general harvest yield of the province is this year exceptionally good.

The patent law of Canada has been so amended that the term for the duration of any patent is limited to eighteen years, but a patent may be taken for six, ten or twelve years at the discretion of the applicant and renewals may be made to bring it up to the full term of eighteen years.

The issue of jubilee stamps, according to the statement of Postmaster-General Mulock, has netted the government at least \$225,000 over and above ordinary revenue and still it is felt that the issue might have been larger. It is now exhausted, so far as use in postal purposes is concerned.

A woman called at the Lewiston, Me., police station one day recently and asked if she could have her husband whipped; he had been scolding her. The officers suggested that the woman, who was big and strong, do the whipping herself, and she went away with the remark, "I dunno but I can do it."

The rise in wheat in England to 40 shillings has dragged up the price of bread to 6d. and 7d. and in the poorest quarters of London, where bread is sold in slices, the loaf is selling at a shilling. On top of this the Millers' National union has started a demand for fewer hours of labor, with a threatening strike if their demand is not accorded.

Inland revenue inspectors at Montreal have just made an important seizure of an illicit distillery. It was found in the cellar of a place on St. Lawrence street, known as the St. Lawrence Confectionery. The officers discovered fifty gallons of whiskey and more than five hundred gallons of liquor in fermentation for the manufacture of whiskey.

Dr. Smilie, of Gaspe Basin, Que., says he is satisfied that the English oil company known as the Petroleum Oil Trust, operating in Gaspe peninsula, has after years of discouragement, at last struck a good thing. The new well, nineteen miles from Gaspe, gives an average of 150 barrels a day. The company is sinking seven new wells in the vicinity.

The American Bank Note company has transferred an important part of its business from New York to Ottawa, which consists in the printing of bank notes for at least half a dozen Canadian banks. Since the new \$1 and \$2 Dominion notes were first issued last month, upwards of \$100,000 worth have found their way into general circulation, and more are going out of the receiver-general's office, as quickly as they could be signed. The old bills were so far used up that the banks do not re-issue more than is possible.

A stock company of Ottawa capitalists is being formed to arrange for the construction of a Steamer balloon from the design of Jos. De Lottie, which will be used for the transport of passengers, freight and government mails from Edmonton to the Yukon gold fields. About \$1,000 has been subscribed and the balloon is expected to be ready in three weeks, when a trial trip will take place in Montreal. The motive power of the balloon will be such that it will not be affected by a cold or damp atmosphere and it will travel close to the ground.

### A Unique Proposition.

J. K. Kerr, Q. C., of Toronto, has gone to Ottawa to lay before the government a somewhat unusual proposition. Mr. Kerr represents a company of capitalists who propose to send to the Klondyke a body of 100 picked men who shall engage in

mining operations but shall in addition be ready at any time to assist the Northwest Mounted Police force in maintaining order in the event of any disturbance. The men would be sworn in as guardians of the peace, before leaving for the west, and that excellent material can be secured is shown by the fact that many old members of the mounted police and members of different Toronto volunteer corps have already signified their desire to join the expedition. In return for the security offered by this volunteer police force the company expect the government to grant them certain privileges in regard to lands held in reserve by the government.

### LOST IN THE ARCTIC.

**Miraculous Escape of Part of a Whaler's Crew—35 Others Lost.**

Two of the crew of the Whaler Nevarch, lost in the Arctic, carrying to watery graves thirty-five of the crew, came down on the steamer Humboldt which has just returned to Seattle, Wash., from St. Michael's. They are Capt. Joseph Whitesides, commander of the vessel, and his wife.

The Nevarch left San Francisco March 2 last and entered the Arctic Ocean in July. She soon got caught in the ice at a point 120 miles northeast of Point Barrow. At first the captain thought the ship could be extricated from the position but on July 2 he realized there was no hope. They drifted rapidly northwards with icebergs, and on August 14, the whole crew took to small boats and started across the ice. When the boats were launched a current caught them and before they had gone ten miles they were in another ice pack. Discovering that they only had five days' provisions, they abandoned the boats and started across the ice on foot. Eight men were left on the boat who thought they were better off there than on the ice and were left to their fate.

Away across the treacherous ice went thirty-seven men and a grumpy woman. After one day out the captain and his wife and seven others changed their minds about the likelihood of saving themselves by the method they had undertaken. Nine of the party went back to the ship, leaving twenty-eight on the ice. Nothing has been heard of the twenty-eight men since that day, Aug. 12. The party got back to the ship safely, and on August 13 made another start, with eight in the party, Capt. Whitesides, his wife and six men. They took a small canvas boat into which they put a week's provisions. Only a comparatively quiet sea accounts for their miraculous escape. They got into clear water for a few hours and paddling through fog and darkness, avoided as best they could the drifting ice. Finally they could go no further.

They got out and walked over the ice. For sixty hours they kept on, first walking and now taking the small boat. Land was sighted which proved to be Copper Island, a barren, desolate island, and from which position they were rescued the following day by the Bear. Capt. Whitesides thinks the twenty-eight men left on the ice are surely lost.

### VERY BADLY DOCKED.

**The U. S. Battleship Indiana in a Precarious Condition at Halifax.**

A Washington special says: The matter of docking the Indiana at Halifax is now before the navy department in a report from Captain Taylor, her commanding officer. Department officers try to make light of the matter, but it is declared, nevertheless, the damage is really serious and will require extensive repairs as soon as the vessel can be detached from the squadron evolution. Although the docking was in charge of Contractor Bowles of the New York navy yard, who had been sent to Halifax for that express purpose, the safety of the battleship was endangered by the failure of these in charge of the docking to observe the simple precaution of placing sufficient blocks under the keel played along the keel, where the greatest weight naturally comes. The distance between keel blocks, which are made of heavy oak timber, seems to have been too wide to support the enormous weight which vessels of the Indiana stamp have. After the ship had been in the dock for a few hours, it was discovered the keel was cutting through the oak blocks, and there was a bulge under the forward turret. Steps were at once taken to shore up that part of the vessel to prevent further settling. The ends of the blocks which had been crushed, had been forced up and had indented the plating of the ship about six inches in depth on both sides. Officers in the secret say investigation to fix responsibility for this accident will have to be called. Dock officials at Halifax are known to have expressed regret, feeling there may be a disposition in the United States to think them capable of intentionally allowing the safety of the American battleship to be placed in jeopardy, when such is not the case. The officials also say they have docked British naval vessels much heavier than the Indiana without trouble, and regret the accident to the Indiana.

### APPLES FOR MANITOBA.

**Canadians Buying Up the Kansas and Missouri Crops.**

Representatives of Canadian fruit companies are now in eastern Kansas, contracting for the big surplus of the apple crop. The cities of Winnipeg, Ottawa and Toronto have men here. When they have contracted for the surplus they will go to south Missouri, famous as the land of big red apples, and continue their purchases. P. J. Miller, representing a big Manitoba concern, says the failure of the Canadian apple crop will cost the people of that country an enormous sum, as the Canadian tariff on United States apples is 40 cents a barrel. Judge Wellhouse, the apple king of the world, who owns 2,500 acres of orchard in eastern Kansas, will contract the entire crop to the Canadian buyers.

### Flying From Fever.

The city of Jackson, Miss., is completely demoralized and business is at a standstill. Fully two-thirds of the population have left the town. Their fears as to the epidemic cases of yellow fever at Edwards, 25 miles distant are increasing. Mayor Wharton posted a notice that he is advised by the state board of health that it would be well to get all the people out of the town provided they desired to leave at all.

No thoroughly occupied man was ever yet very miserable.—London.

### CHARGED WITH DEFRAUDING.

**Duke and Duchess of Rio Grande in a London Police Court.**

The duke and duchess of Rio Grande were arraigned in the Marylebone Police Court, London, Eng., charged with defrauding hotels and boarding houses. The duke is said to be a Brazilian nobleman, and the duchess, it is asserted, is a niece of the late Senator Omer D. Conger, of Michigan. The prisoners were brought up in the midst of a motley assemblage of ragged criminals. They had slept in cells in Holloway and showed the effects of the uncomfortable night they had passed. Nevertheless, the Duke rested his chin jauntily on his gloved hand. He is a short, dapper man, with pompadour hair, pointed beard and waxed moustache. The duchess is a handsome woman, about 35 years of age, with refined features. Her face was swollen with weeping. The duchess said her father lived in a village in northern New York and she added that he was an artist and a member of the artist's board of awards of the Chicago exposition.

A hotelkeeper and the landlady of two boarding-houses confronted the couple in court. Mrs. Elizabeth Stanley, one of the landladies described her experience. She said a lady (the female prisoner) with an infant and nurse, went to her house on June 21 at night, and engaged a room. The lady saying that her husband was dining at the club. The husband (the male prisoner) arrived late, explained that he had been yachting and that his baggage was delayed. He stayed at Mrs. Stanley's house until August 1, making many excuses when asked for money or any explanation as to why their baggage was not forthcoming. Finally, Mrs. Stanley was compelled to have the duke and duchess expelled from the house. The landlady said she felt sorry for the lady, as her husband neglected her shamefully. While residing with Mrs. Stanley the duke and duchess gave the names of Monsieur and Madame Edgar Serge de Niel. The lady said her husband was a duke and a count, that he had half a dozen titles, and that "some emperor" was about to confer another title upon him. This portion of the evidence caused the presiding magistrate to remark sarcastically: "and that will make seven titles." The woman is well known in New York as Mrs. Clara Conger. She married de Niel there in 1895. The Brazilian minister says there is no such title as duke of the Rio Grande.

### WONDERFUL INVENTION.

**System of Telegraphing Likely to be Revolutionized.**

The Omaha Bee prints a letter from Lieut. Geo. C. Spenser, U. S. A., to Hon. E. Rossiter, giving the results of a test of the Spenser's synchronous telegraph system of telegraphing. In the letter Lieut. Spenser says:

Over a line from London, via York to Aberdeen and return to London, a distance of over 1,100 miles, including over 80 miles of underground cable, we sent messages at the rate of 1,300 words per minute and this speed was only limited by the particular dynamo available. We have also tried a cable, representing the German cable of 120 knots, from London to Germany, and sent over it the rate of 1,300 words per minute. Our apparatus is mounted in the general postoffice, London, from which point the experiments thus far have been made.

Commenting on this, the Bee says: By the employment of the synchronous telegraph 500 words a minute can be easily sent across the Atlantic cable. The inventors maintain that their very successful trials in England demonstrate the possibility of sending express messages between New York and Chicago at such a speed that the entire contents of a newspaper could be transmitted in an hour and the statement does not seem unreasonable. The speed at which messages under this new wonderful system may be sent is limited only by the speed at which an electric dynamo can be made to revolve. The messages are both sent and received by the aid of a dynamo. It is believed that with the successful operation of the system, letters up to the length of 500 words can be transmitted by the telegraph at no greater cost than by the postal rates now in effect.

### STEAMERS FOR THE YUKON.

**The C. P. R. Will Establish a Line and Construct a Railroad.**

Mr. Robt. Kerr, traffic manager of the C. P. R. western lines, confirms the information telegraphed from Vancouver that the company would establish a steamship service from Vancouver to Yukon coast ports of entrance to the Yukon, in connection with the construction of a railway line from a point on Sitkoon river to Teslin lake, on which body of water steamers will also plied. Mr. Kerr added that there were numerous projects in contemplation for the accommodation of traffic that would be going in the direction of the Klondyke gold fields next spring.

Manager Whyte intimated that while in the west with Vice President Shaughnessy arrangements were made for sending Mr. Duchesnay, of the engineering staff on the Pacific division, to examine the route of a projected railway from the Sitkoon river to Teslin lake. A line of little over 100 miles is necessary to connect the navigable waters, and if the work is decided on a construction will be commenced as soon as possible, so as to have the route opened for much of the traffic next season.

### CHEROKEE STRIP.

**Trouble May Follow the Ejection of Intruders.**

From present indications trouble will follow an attempt to eject the intruders from the Cherokee Nation. When the Cherokee strip was sold, the United States government promised to put out all the intruders. But upon one technicality or another they have managed to remain. The government has decided to take a firm stand, however, and has ordered their removal forthwith. There are 500 of them and Agent Wisdom will undertake the task at once. Word from the Nation says there will be resistance on the part of some of those inclined to go and serious trouble is not improbable, as some of them are desperate men. The agent has the ward department at his back and two or three companies of cavalry are being held in readiness at Fort Gibson. Some of the intruders have appealed their cases to the United States courts and will ask for an injunction restraining the agent until their status as citizens can be more definitely determined.

## A THRESHER'S LIFE.

### ONE OF EXPOSURE TO INCLEMENT AND CHANGEABLE WEATHER.

**He Easily Forms a Prey to Disease—Rheumatism One of the Natural Results—One Who Suffered for Upwards of Nine Years Gives His Experience.**

From the Intelligencer, Belleville, Ont.

It is doubtful if there is any other occupation more trying to the constitution than that of the thresher. Exposed to the rains and storms of the autumn season, and at the same time choked with the dust consequent upon threshing, he easily falls a prey to disease. Mr. Jos. H. Davis, a resident of the township of Wicklow, Hastings county, follows the threshing machine for some months every fall. For eight or nine years he was subject to attacks from inflammatory rheumatism. The disease usually made its appearance in the fall, and continued throughout the winter, causing not only much suffering but great inconvenience. Mr. Davis most serious attack occurred during the winter of 1893. It first made itself manifest by the swelling of the right hand, and before twenty-four hours had passed the disease appeared to have gone through the whole system, and the legs were swollen to an abnormal size, so much so that the joints were not visible through the swellings. For ten months the trouble continued and during that period Mr. Davis was unable to put on his own clothes, and the pain he endured almost passed comprehension. One doctor after another was called but without any beneficial results. Then advertised medicines were tried but with no better success. "I can hardly say," said Mr. Davis, "how much money I spent on doctors and medicine, but it amounted to a considerable sum, and yet I would most willingly have given my farm to be rid of the terrible pain I was endured to endure. But all my expenditures seemed of no avail, and I began to despair of a cure. At this juncture, acting on the advice of a friend, I began using Dr. Williams' Pink Pills. The first boxes I used seemed from outward appearances to have had no effect, and I felt almost like giving up in despair. I thought, however, that possibly that was not a fair trial for me in my condition and I procured a further supply. By the time I had used three boxes more there was a considerable improvement noticeable, and from that out each day found me growing better. I continued using Dr. Williams' Pink Pills until I had taken eighteen boxes by which time every vestige of the pain had left me, and I was feeling in every respect a new man. I believe, too, that the cure is permanent for I have not known what it is to suffer with rheumatism since."

I will thus be seen that Dr. Williams' Pink Pills relieved Mr. Davis from the painful throes of rheumatism at a comparatively small expense after doctors and other medicines had utterly failed to give him even a fair measure of relief. It is obvious therefore that Dr. Williams' Pink Pills are given a fair trial they are sure to bring relief and a cure. Every box of the genuine Pink Pills has the trade mark on the wrapper around the box, and the purchaser can protect himself from imposition by refusing all others. Sold by all dealers at 50 cents a box or six boxes for \$2.50.

### HEALTHY STOMACH!

Happy Man! Nothing Experimental About Using the Great South American Nervine—What it has Done for Thousands it Can do for You!

Here are Strong Words from a Reliable Western Man—Read Them.

I have been a great sufferer from indigestion and dyspepsia. I tried many remedies, but obtained very little relief. I saw South American Nervine advertised, and concluded to give it a trial, and I must say I consider it the very best medicine I have ever used. I obtained great relief from the first few doses. I have only used two bottles, and am happy to say it has made a new man of me. I strongly recommend it to fellow sufferers." C. FRANK, Dry Goods Merchant, Forest, Ont.

Rest satisfied with doing well, and leave others to talk of you as they please.

### KIDNEY WAR.

Few Insidiously it Wages, but how Quick the Surrender, and how the Flag of Truce is hurriedly hoisted when that Great General South American Kidney Cure, Turns his Guns on the Disease.

This is what James Sullivan, of Chatham, Ont., writes: "For years I was a great sufferer from Kidney trouble. The disease became so acute that I was confined to the house, and was greatly afflicted with insomnia. I was prevented from using many other remedies without relief to procure a bottle of South American Kidney Cure. I had relief almost from the first dose. I have persisted in its use, and after using six bottles I am well and strong again. I can work fourteen hours out of twenty-four and feel very little if any fatigue. It is the best medicine I have ever used."

### CRUEL SCIATICA.

Insistent Pain—Tormented—Racked—Life Despaired Of.

John Marshall, Varney, P. O., Co. of Grey, writes these strong words: "For two years I was completely laid up with sciatica. I doctored without any permanent relief. I had given up hope. A friend saw the notice of a cure of what seemed a parallel case to mine, by South American Rheumatic Cure, and knowing my little faith in the efficacy of any remedy, he procured a bottle himself and brought it to me. I took it, and to make a long story short, it saved my life. In a day or so I was out of bed, and in three days I was able to walk to Durham, a distance of four miles, to purchase another bottle. I am now entirely cured."

## WILL NOW BE STARTED.

**Development Work in the Kootenay Coal Fields to be Pushed.**

The East Kootenay Miner says: The immense coal fields in southeast Kootenay, close to the Crow's Nest Pass, which belong to the Kootenay Coal company, are now to be opened up. A meeting of the company was recently held in Montreal when it was resolved that immediate steps be now afoot to work the coal seams. For the snow falls the rail-roads will be through the Pass and to the coals washed by the waters of the Kootenay. The directors are now taking steps by the purchase of a locomotive. The locomotive does emerge from the Pass in its western end, there will be fuel ready to supply the wants, and also to haul back.

The opening of these coal fields means a great deal to East Kootenay. It means smelters and industries. East Kootenay at this present moment does not possess any of these. She has now mines that are shippers, and are capable of shipping large quantities of ore. She has the finest water power in British Columbia. She has the choicest mill sites with excellent timber, and she will when the railway is completed have fair locomotion. She now requires more wagon roads and more trails so that her mines may have an opportunity of sending their produce to the nearest markets. The nearest markets will be our smelters when they are erected. But these cannot be put until we get coke. Our coke—the most admirable quality—will be got when these fields are opened up, and they will be on the railway is completed.

## Caution.

Parties buying wood from Indians without a permit first being obtained from the agent or his assistants, and which can be had free, are liable to a fine of \$100. The Indians should also have permits, and should show them before selling the wood.

## Local and General

The Cosgrove's, Sept. 27.  
The World-La Dell concert, Oct. 4.  
—The Northwest Assembly is called to meet on the 28th of Oct.  
—Rev. Mr. Atwood of Welwyn, will preach at Davin on Sunday at 11 a.m.  
—Mr. C. F. Musgrove of Touchwood, shipped a fine herd of cattle from here this week.  
Messrs. Morgan, Love and Bul-yea are buying wheat this year at the Northern elevator.  
—The polo match on Tuesday, Married vs. Single, resulted in the Married winning 3 to 1.  
—Work on the Lake of the Woods elevator has commenced and is being rapidly pushed forward.  
—The Ladies' Guild of St. Peter's will hold a sale of useful articles on Oct. 6. Light refreshments will also be served.  
—If "Fairy Dot" will send in her name (not necessarily for publication) we shall be pleased to publish "Harvest Hurry."  
—Mr. J. Doolittle intends building a large furniture store next to Johnston's tin and hardware store, on Main street, at an early date.  
—"Pa, give me a nickel to ride on the merry-go-round?" "No, my son; but if you are a good boy, I'll take you out Sunday to see grand-mamma's grave."  
—The pleasant phiz and genial smile of Mr. J. Love of Touchwood, were to be seen in town on Monday. Mr. Love returned to his ranch on Tuesday.  
—The Cosgrove company delighted a large audience at Indian Head on Tuesday evening. They appear at the Fort on the 25th and at Qu'Appelle on the 27th inst.  
—Messrs. Gordon & Ironsides have shipped 2000 head of cattle from Winnipeg to the Old Country during the past week. The week previous the number sent was 1500.  
—Fire destroyed a stack of hay belonging to Mr. F. Bell, yesterday, situated near the track, southeast of town. It is supposed to have been set on fire by a spark from a passing locomotive.  
—S. H. Caswell & Co., have bought out D. Shaw's general store at McLean Station, and will run it as a branch store at that place. A new building is now being erected for that purpose.  
—A match race will take place at the race track on Monday, between Mr. C. Fetherstonhaugh's "Clown" and Mr. A. Gray's "Skip." Several others are likely to take place the same day.  
—The first number of "Sport" has reached the Progress. It is a neat little four-page paper, devoted to the interests of sportsmen and athletes in the Northwest, and is published by W. Trant, Regina. Although small in size it is full of news interesting to those fond of sports, and we trust Bro. Trant will

meet with sufficient encouragement to warrant him enlarging the paper at an early date. "Great oaks from little acorns grow."

—A decision has been given in favor of the Brassey Estate on the assessment appeal lodged against the rating of some of its lands by the South Qu'Appelle Municipality.

—"Cut Gems" is a new homiletical magazine, published in Troy, N.Y. Its aim is the laudable one of furnishing apt and fresh scriptural truths from every field of science, history and literature.

—The numbers on the unsigned Dominion bank bills that were taken at Nanawau by burglars, \$10,000 worth—are Nos. 46,001 to 47,000, series A, dated 2nd January, 1888, all \$10 notes. Look out for them.

—Mr. Atkinson closed his evangelistic services in the Methodist church last evening, owing to ill health. As soon as he is able he will hold services in the Edgeley district, and visit Qu'Appelle again later on.

—Next Sabbath is Children's Day throughout the Presbyterian church in Canada. A Harvest Home thanksgiving service will be held in Knox church at 3 o'clock. Collection in aid of the funds of the S. S. committee.

## I WILL BE HEARD

In Letting the World Know What a Boon Catarrh Sufferers Have in Dr. Agnew's Catarrhal Powder.

John E. Dell, of Paulding, O., says of Dr. Agnew's Catarrhal Powder: "I was a sufferer from chronic catarrh. I was advised to try Dr. Agnew's Catarrhal Powder. It worked a great cure in me. I had almost instant relief. It is the best remedy I ever tried for this disease. I will do all I can to make its excellent qualities known to those suffering as I did." Sold by Henderson & Parker.

—Wheat prices at present are fluctuating, the price at this point to-day being 73c. So far the deliveries only range about 500 to 600 bushels a day, this is owing to the small quantity yet threshed and the disposition to store for higher prices.

—Mr. W. A. Heubach of Touchwood, shipped yesterday 260 head of fine cattle to the old country. Besides this, over thirty carloads have been shipped from here this week. A. W. Spiers 12, Gordon & Ironside 12, R. Johnston 8.

—Mr. W. R. Harvey of this place, still has the agency for the famous "Queen" top-draught heating stove, and he intends pushing sale of same this fall. This stove will burn anything burnable and is giving great satisfaction wherever used. Watch for advertisement in our next issue.

—The other day at a gathering at one of the experimental farms there was some spirited discussion about the value of newspapers. There was not a dissenting voice in the view that the "Family Herald and Weekly Star," Montreal, is the best all round family newspaper in America, and it will hold its own with any in the world.

—The Harvest Home services in the pro-cathedral drew forth large congregations both morning and evening, to listen to the preaching of Bishop Grisdale, who chose for his morning subject Psalm 65, v. 9-13, and in the evening preached on the "Sin of Selfishness." The church was beautifully decorated with flowers and the first fruits of field.

—The new threshing outfit purchased by Sperling & Mitchell, is giving great satisfaction both to the owners and farmers. Last week they started in on the farm of Mr. Edmunds and threshed his grain in short order, next they threshed out Mr. W. Gibson who is delighted with his crop which averaged thirty bushels to the acre. Mr. Edmunds disposed of his wheat to the N. E. company for 75c a bushel, it going No. 1 hard. After disposing of his wheat he came in to see us and renewed his subscription to the Progress, setting a good example to others.

## The Grim Reaper Failed

The Marvellous Virtues of Paine's Celery Compound Conquer and Banish a Lady's Troubles.

Five Doctors Were Unable to Help the Sufferer.

Twelve years of misery and agony from female, kidney and stomach troubles! Physicians were utterly perplexed and unable to cure the lady! In a time of gloom and despondency the magic virtues of Paine's Celery Compound bring joy and new life! These are the leading facts in the following statement made by Mrs. G. Stone, of Eganville, Ont.

"For more than twelve years I was afflicted with kidney, stomach and female troubles, and had been attended by five doctors, and tried medicines after medicine, without any good results.

"My sufferings a year ago from the kidneys and stomach were dreadful. I was in such a state that I thought I could not live, and concluded there was no use trying other medicines.

"I was advised, however, to try Paine's Celery Compound, and finally decided to give it a trial. Before I had finished the first bottle I had improved very much, and after the use of a few more bottles I had not been so well for long years, and am now altogether a different person. The use of Paine's Celery Compound also banished my nervousness. I can therefore recommend Paine's Celery Compound to anyone suffering from kidney, stomach and female troubles."

—The funeral of Mrs. E. Shore, of Manitow, widow of Edmund Shore, who was a former resident of this city in the early eighties, but later of Qu'Appelle, took place yesterday from the residence of her niece, Mrs. A. Campbell, 521 Notre Dame street, to St. James cemetery where the remains of her husband also lie. The floral tributes were numerous and very beautiful. Services were conducted at the house and at the cemetery by the Rev. Mr. Canfield, of Manitow, of whose congregation deceased was a devoted member.—Free Press.

## THE UNIVERSAL ANSWER

What Dyes are always guaranteed, And in our country take the lead?

The Diamond Dyes!

What Dyes are strong, and bright and fast? And always dye to live and last?

The Diamond Dyes!

What Dyes bring profit, pleasure, peace, And by their work a great increase?

The Diamond Dyes!

What Dyes should every woman try? Hark! Listen to that mighty cry—

The Diamond Dyes!

## Personal Mention.

Mr. Geo. Scott, of McDonald Hills, is in town.

Miss Ida Barclay, of Lethbridge, is visiting in town.

Mr. E. W. Warner, of the C. P. R., Winnipeg, is in town.

Mr. C. T. Bailey, of the firm of Bailey & Co., went to Winnipeg on Monday.

Mr. J. S. Henderson, of the Henderson Directory Co., was in town yesterday.

Chief Factor McDonald of the H. B. Co., Fort Qu'Appelle, was in town Tuesday.

Mr. W. Cleverley of Brandon, the man who resembles Greenway, visited town last week.

Revs. Messrs. Matheson and Thomson attended meeting of presbytery at Wocley this week.

Mrs. T. Egan of Gladstone, is visiting her parents, Mr. and Mrs. Blackwell, of the Leland, this place.

Messrs. D. H. McDonald, M.L.A., A. McDonald and W. Heubach, drove in from the Fort yesterday.

Mr. Neil McCallum, ex-mayor of Moosomin, is in town, assisting Mr. McNaughton of the Massey-Harris Co.

Messrs. W. L. Lawler and N. M. Stewart of Winnipeg, agents of the McCormick Harvesting Machine Co., are in town.

Mr. H. S. Harwood, M. P. for Vaudreuil, P.Q., arrived from the west on Tuesday evening, proceeding to Fort Qu'Appelle on Wednesday morning.

Miss Cameron, a graduate of the Galt, Ont., Training School for Nurses, is visiting friends in town. We hope Miss Cameron may be induced to remain.

## Edgeley Echoes.

The second open meeting of the Edgeley Council B. T. of T. was held in the church last Friday evening, commencing at 8 o'clock. The weather being favorable, the church was nicely filled, and on the whole a pleasant and profitable time was spent. The chair was ably filled by Select Councillor J. H. Fraser, who, as one could see from the tone of the meeting, was the right man in the right place. A special feature of the evening was the remarks of the Rev. Mr. Galley, who spoke on the subject of "Temperance," and added much to the evening. In the debate, City against Country Life, the speakers were Rev. Sec. T. J. Wilson and Select Councillor J. H. Fraser, respectively, the former winning the laurel during the evening.

Through some misunderstanding as to the date of the meeting, some of those who were to assist came the following evening. We can truthfully say we are sorry for the mistake caused by such misunderstanding. The following is the programme:

Opening ode and prayer; chairman's address, J. H. Fraser; song, Mrs. Wilson; speech, Rev. Galley; song, W. F. Matthews; debate, City vs. Country life, by T. J. Wilson and J. H. Fraser; song, S. G. Howitt; song, Miss Ella Scott; recitation, Mrs. Wilson; song, Miss Edith Fessenden; song, Mrs. Fraser; reading, T. J. Wilson; closing ode.

Inspector Fleet visited our school not long ago, and seemed well pleased with the way things were running. He especially complimented the trustees on the recent improvements, which add much to the appearance of the school.

Harvesting is about completed in this district. The Craig Bros. will, we believe, have their threshing outfit in full blast sometime this week.

Miss Gertrude Craig has returned from a visit to her sister at Grenfell.  
Miss Ida Tate has returned from a visit to her sister at Weyburn.

Brick and Blacksmith Coal and Hardwood always in stock.

## A Word to Farmers Round Qu'Appelle

HOW ME THE FARMER that does not like a good plow, mow or binder. In fact he likes all his implements to be the very best in the market—there are none too good for him. How's this? Simply because he can do a good day's work with less labor and with twice the comfort and pleasure. That is all right. But just here I want to say a word to Mr. Farmer. Stop and think, just for a moment. When starting out in the morning to your day's work, whistling and as happy as a clam in a swill barrel, do you ever give a thought about your poor wife, who for the last ten years has been striving and struggling, trying to cook your meals on that old, broken, cracked-up stove? You give a farmer a tool like that to work with and what would be the consequence? Why, he would get mad right away, fling it over the fence, go to town and buy a new one. Is it not just the same with your wife? Perhaps you think that she would not appreciate a good stove. Do not make any mistake like that. Take one home with you and try her. Give her a show to do her share of the work as well as as you. Don't be selfish and keep all the good things to yourself. When in town drop into

## WM. JOHNSTON'S

and take a look at some of the best stoves that are made in Canada. See the Famous Model! Bottom of oven sheet steel, bottom of stove covered with fire clay, thermometer in oven door to tell when your bread is cooked; ventilated oven; bolts all on outside of stove. On a trial test in the City of London, this stove baked 200 loaves of bread in seven hours. This famous stove is made by the McCreary Manufacturing Co., of London, Ont. Then take a look at the Grand Jewell, all steel oven. This is the stove that took the cake at the late Territorial Exhibition, at Regina. Made by D. Moore & Co., Hamilton. Then take a look at the Grand Souvenir, that will burn coal or wood, finished with all the latest improvements, made by the old reliable firm of Gurney & Co., Toronto. These are three of the oldest and most reliable stove makers in Canada. Their stoves are known from the Atlantic to the Pacific. Come in and see these stoves; it will cost you nothing. No trouble to show goods. I have also a full line of Steel Enamelled ware, Copper, Tin and Sheet-iron ware. Give me a call; I will make the prices right.

## ONE HONEST MAN.

To the publisher:

Please inform your readers that if written confidentially I will mail in a sealed envelope the plan pursued by which I was permanently restored to health and nervous strength after years of suffering, nervous weakness, lost vigor, unusual discharges, and lack of development.

I have no scheme to extort money from anyone. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but, thank heaven, I am now well, vigorous and sound, and anxious to make this certain means of cure known to all.

Unsolicited endorsements from my grateful friends who have been cured through my free advice:

Mr. Mulford: "I saw your notice in the paper some time ago, and wrote you about my case. After following your advice, which you so kindly gave me, I am very glad to say that I am now perfectly cured. I wish to thank you a thousand times for your kindness."

"Heaven grant you a long and prosperous life, is the wish of a cured friend."

"Judge of my surprise to receive a kind letter of so valuable advice, absolutely free."

"I am the first advertisement that I have answered that did not ask me to call at the express office and pay for medicine that I had not ordered."

"I am happy to say that you are truly an honest man, and deserve the endorsement of both pulpit and press."

In conclusion: I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address with stamp, Mr. Wm. T. Mulford, Agents' supplies, P.O. Box 59, St. Henri, Montreal, Can.

30 YEARS' EXPERIENCE.

## PATENTS

TRADE MARKS, DESIGNS, COPYRIGHTS &c.

Anyone sending a sketch and description may quickly ascertain, free, whether an invention is a patentable. Communications strictly confidential. Oldest agency for securing patents in America. We have a Washington office. Patents taken through Munn & Co. receive special notice in the

SCIENTIFIC AMERICAN,

beautifully illustrated, largest circulation of any scientific journal, weekly, terms \$3 a year, \$50 six months, specimen copies and HAND BOOK ON PATENTS sent free. Address

MUNN & CO.,

361 Broadway, New York.

## PATENTS

PROMPTLY SECURED

GET RICH QUICKLY. Write to-day for our beautiful illustrated book on Patents and the fascinating story of a poor inventor who made \$250,000. Send us a rough sketch or model of your invention and we will promptly tell you FREE if it is new and probably patentable.

No business, honest service. Specialty: Tough cases rejected in other hands and foreign applications. References: Honorable J. A. A. Bow, the leading newspaper, Banks, Express Companies & clients in any locality. All Patents secured through our agency are brought before the public by a special note in over 30 newspapers.

MANN & MARION, Patent Experts, Temple Building, 165 St. James St., Montreal.

The only firm of Graduated Engineers in the Dominion transacting patent business exclusively. Attention this paper.
